"Camellias of Tomorrow"

Cataloguing — 1955-56 Season

Frosty Morn

"A HIGHLY COMMENDED WINNER"

A Listing of New Introductions

***Award Winners

*First time listed

Many of the seedlings in this catalogue are listed chiefly to acquaint and benefit our local patronage. They have some special merit warranting their introduction for enjoyment in our own territory. The special Award Winners, we hope, will have appeal to the collectors and friends in the Southern and Eastern States interested in new Camellias.

Much discussion has been offered on perfumed flowers (whether they have or have not). However the varieties listed here have been judged many times by many garden groups as definitely fragrant. Time of day or age of flower make some difference as to intensity.

Novelty flowers have been added to please landscape designers and also for artistic decoration.

Sufficient quantity of some of the earlier introductions is such that price structure is sharply reduced from last year.

ATTENTION TO OUT-OF-STATE GROWERS

We are required to ship our plants bare-root, which limits us to dates approximating November through March. All soil is thoroughly washed from roots and the roots are placed in a solution containing "Superthrive" before packing.

Upon arrival, unpack and moisten roots at once. When planted keep shaded some until plants recover from shock of moving.

We of course take pains to ship only healthy plants and label same carefully. If any mistakes are made our liability is limited to the purchase price of the plants.

Packing costs on orders of \$20.00 or more are free. Less than \$20.00, a charge of \$1.50 on orders to \$10.00 and \$2.50 for \$10.00 to \$20.00. Please accompany order with cash unless credit otherwise established.
